

SKINTOP® ST-M L-BOXX

Being organised is essential. With our product case for SKINTOP® ST-M cable glands with a component insert and transparent lid, you always have the right thread size at hand. Thanks to its robust design, integration in vehicle equipment systems and the snap-in system for combination with other cases, it is perfectly suited for assembly use.

Inset for loose components ensures optimum organisation and prevents mixing of the items.

Case made of light and robust, shock- and impact-resistant ABS plastic.

Intelligent snap system allows quick connection, combination and disconnection of cases, saving time and energy during transport.

Easy integration in vehicle equipment systems of numerous manufacturers.

Transparent lid allows a perfect overview even when closed.

For safe transport and storage of SKINTOP® ST-M cable glands (sizes M12 to M32).

Especially for assembly use, e.g. on the construction site.

Two robust locking mechanisms ensure a secure closure.

Case can be refilled with standard packaging units.

Mounting instruction and locknut included.
